All values listed are in parts per million (PPM)

"None" indicates no MRL value established

"Exp" means the country in question defers to the exporting country

* Japan: a Food Additive tolerance is required for fruit treated postharvest.

Users of PostharvestUniversity.com MRL reports are advised that national, regional and international regulations affecting permissible Maximum Residue Levels (MRL) frequently change. Although this database is updated periodically, the user accepts that the information on Maximum Residue Levels in it may not be completely up-to-date or error free. Additionally, commodity nomenclature and residue definitions vary between countries and country policies regarding deferral to national, regional and international standards are not always transparent. This database is intended to be an initial reference source only, and users must verify any information obtained from it with the relevant regulatory agencies in the market of interest prior to the sale or shipment of any products. Syngenta shall not be liable for any loss or damages, including, but not limited to, direct or consequential damages, loss of profit, loss of business, loss of revenue, demands, claims, actions, proceedings, damages, payments, expenses, or other liabilities occasioned to or suffered by any person acting or refraining to act as a result of the information relating to Maximum Residue Levels contained in this PostharvestUniversity.com MRL report, or otherwise caused by or arising, in whole or in part, in any way from user's use of this PostharvestUniversity.com MRL report.

Users of PostharvestUniversity.com MRL reports are advised that national, regional and international regulations affecting permissible Maximum Residue Levels (MRL) frequently change. Although this database is updated periodically, the user accepts that the information on Maximum Residue Levels in it may not be completely up-to-date or error free. Additionally, commodity nomenclature and residue definitions vary between countries and country policies regarding deferral to national, regional and international standards are not always transparent. This database is intended to be an initial reference source only, and users must verify any information obtained from it with the relevant regulatory agencies in the market of interest prior to the sale or shipment of any products. Syngenta shall not be liable for any loss or damages, including, but not limited to, direct or consequential damages, loss of profit, loss of business, loss of revenue, demands, claims, actions, proceedings, damages, payments, expenses, or other liabilities occasioned to or suffered by any person acting or refraining to act as a result of the information relating to Maximum Residue Levels contained in this PostharvestUniversity.com MRL report, or otherwise caused by or arising, in whole or in part, in any way from user's use of this PostharvestUniversity.com MRL report.

For more information, visit these Syngenta Crop Protection Web sites: www.syngentacropprotection.com, www.PostharvestUniversity.com or call the Syngenta Customer Center at 1-866-SYNGENT(A) (796-4368).
