

TOP-NOTCH DISEASE CONTROL IN RICE

Amistar® Top fungicide offers reliable, sustainable and robust control of key rice diseases, including kernel smut and strobilurin-resistant sheath blight. Its two highly efficacious active ingredients combine to provide sustained peak performance for maximum yield and high return on investment.

Key features:

- Offers preventive, systemic and curative activity
- Contains a robust combination of azoxystrobin and difenoconazole
- Demonstrates rapid uptake with translaminar and xylem-systemic movement
- Low use rates, application flexibility and low risk to beneficials
- Ideal for use in Integrated Pest Management (IPM) programs

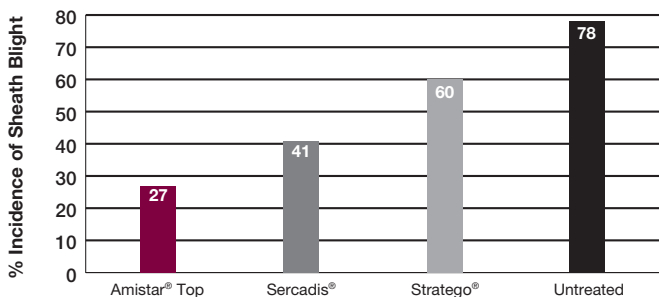

Disease controlled:

- Sheath blight
- Kernel smut
- Stem rot
- Black sheath rot
- Rice blast
- Brown leaf spot
- Narrow brown leaf spot
- Sheath spot
- Aggregate sheath spot
- Leaf smut
- False smut (suppression)

Application Guidelines:

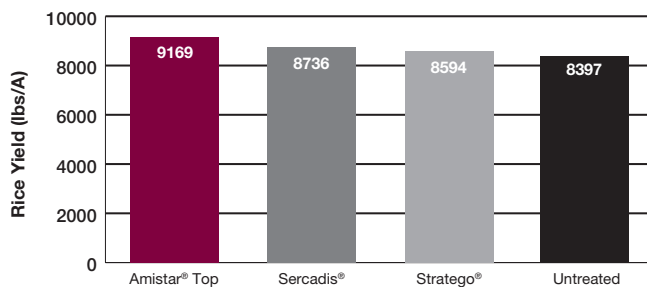

- Rate: 10.0 – 15.0 oz/A (Choose higher rates in range for susceptible hybrids and varieties, favorable conditions for disease development, or when rice blast is the target disease)
- Aerial application in minimum 5.0 GPA
- Addition of spray adjuvants, such as NIS, may improve coverage and canopy penetration

Amistar Top delivers better disease control
