

REGIONAL HERBICIDE RECOMMENDATIONS

New Jersey and Pennsylvania

As weeds continue to develop resistance to glyphosate and other herbicides, growers have to modify and diversify their weed management programs. Resistance Fighter® from Syngenta provides education, a comprehensive herbicide portfolio and local recommendations that help growers and retailers effectively manage resistant weeds in their specific area.

CORN (GLYPHOSATE TOLERANT) *Problem weeds: pigweed species, lambsquarters, velvetleaf, marestalk, morningglory, foxtail*

Burndown	At-planting or pre-emergence	In-crop
