

The industry's most innovative solutions for proactively protecting your yield potential.

Take control of yield-robbing above- and below-ground pests by choosing the Agrisure® trait stack that fits your acres.

AgrisureDuracade®

Agrisure Duracade trait stacks control 16 above- and below-ground insects, more than any competitive trait stack.

Control of these damaging pests provides:

- ▶ **Above-ground:** less damage from ear-, stalk- and leaf-feeding insects resulting in:
 - ▶ Less stand loss
 - ▶ Noticeably healthier ears with less insect damage
 - ▶ Reduced risk of mold and mycotoxin development for high-quality grain
- ▶ **Below-ground:** stronger, more robust root systems that lead to:
 - ▶ Healthier plants
 - ▶ Fuller leaves that allow for increased photosynthesis and maximum grain fill
 - ▶ More robust stalks that stand tall

Agrisure traits deliver more control of more insects:

Insect	Agrisure Duracade® 5222 E-Z Refuge®	Optimum® AcreMax® Xtreme / Qrome®	SmartStax® RIB Complete®
Corn earworm	++++	++	+++
Black cutworm	++++	+++	+++
Fall armyworm	++++	+	+++
Western bean cutworm	++++	+	+
Dingy cutworm	++++		
Common stalk borer	+++	+	+
Lesser cornstalk borer	++++	+++	++++
Southern cornstalk borer	++++	+++	++++
True armyworm	++++		
Beet armyworm	++++	+++	+++
Sugarcane borer	++++	++++	++++
European corn borer	++++	++++	++++
Southwestern corn borer	++++	++++	++++
Western corn rootworm, Northern corn rootworm, Mexican corn rootworm	+++	+++	+++

Insect control scale: blank = unavailable; - = no effect; + = some; ++ = good; +++ = very good; ++++ = excellent

All competitor information is based solely upon interpretation of publicly available information including public presentations, regulatory submissions and observations made in commercial fields.

Protecting yield potential and field health.

Only the Agrisure traits portfolio can offer industry-leading above- and below-ground control by combining the Agrisure Viptera® trait with the Agrisure Duracade® trait via the Agrisure Duracade 5222 E-Z Refuge trait stack to control up to 16 above- and below-ground insects – more than any competitive stack.

Klemme, IA, 2012

Holyoke, CO, 2013

Trait stacks with above- and below-ground insect control:

Many trait stacks are available in a simple E-Z Refuge® seed blend, offering a convenient in-bag refuge, and in combination with water optimizing Agrisure Artesian® corn hybrids, noted by an 'A' at the end of the trait stack name, to provide growers a practical option to meet water challenges.

Talk to your seed reseller about the right Agrisure traits for your fields.
