

AgriEdge: Empowering you to make better, faster decisions

SERVICES

Exclusive on-farm technology and agribusiness consultation from an AgriEdge® Specialist; Top ranked web- and phone-based assistance delivered by the AgriEdge Support team

STEWARDSHIP

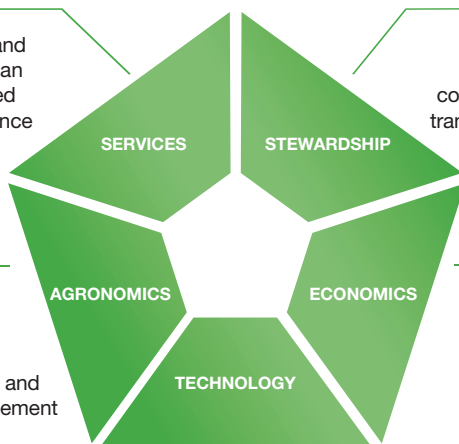

Sustainable practice tracking, reporting, and mapping for regulatory compliance to allow greater supply chain transparency, and enhanced relationships with Value Chain partners

AGRONOMICS

Access to the industry's most complete portfolio of products, with integrated crop planning, prescription recommendations, and analytics for continuous improvement

ECONOMICS

Field-level profitability analysis, unique risk mitigation offers in crop production, and competitive financing for Syngenta crop inputs

TECHNOLOGY

AgriEdge software combines business level decision making, field level agronomic insights, and an integrations hub to put all the technology you use in one place

Integrated Innovation

AgriEdge offers a complete, technology-enabled approach to help you translate agronomics into economics.

- **Agronomics**
 - Maximize your potential ROI and help manage risk through crop planning
 - Access to Syngenta's field force with extensive agronomic and product knowledge
- **Service**
 - Dedicated on-farm support through our network of AgriEdge Specialists
 - Best-in-class customer service and remote technical assistance from the AgriEdge Support team
- **Stewardship**
 - Grower data is owned by the grower, not by Syngenta
 - Wide variety of reports to assist in your analysis and regulatory compliance needs
 - Track and measure stewardship and conservation practices
- **Economics**
 - AgriEdge offers choice and is based on agronomic decisions and the economic impact they have on your business (ROI)
 - Qualify for financing on eligible Syngenta seed, crop protection and seedcare brands
 - Measure field-level profitability
 - Syngenta shares in the cost of your Syngenta purchases through our risk management reward component
- **Technology**
 - Unmatched data and record-keeping through the AgriEdge farm management software that can be accessed from your office or in the field
 - Satellite, aircraft and drone imagery capabilities to help early detection of pests or disease in your fields through AgriEdge imagery
 - Our digital technology is based around integrations and partnerships to enhance your productivity by reducing data entry
