

Tavium Plus VaporGrip Technology application records form

Tavium® Plus VaporGrip® Technology herbicide is a Restricted Use Pesticide. Accurate record keeping is required for the application of this product.

- Applicators must keep the following records for a period of two years, or as required by state law:
 - Receipts or copies for the purchase of this product.
 - A copy of this product label and any state special local needs label that supplement this label.¹
 - Record of the buffer distance calculation and any areas included within the buffer distance calculations.
 - Record that a sensitive crop registry was consulted and documentation that adjacent fields and crops/areas surrounding the field were surveyed prior to application.
 At a minimum, records must include the name of the sensitive crop registry and the date it was consulted, and documentation of adjacent crops/areas and the date the survey was conducted.
- Records must be generated within 72 hours of application, or as required by state law.
- A separate record must be generated for each individual application.
- Records must be made available to State Pesticide Authority, U.S. Department of Agriculture and Environmental Protection Agency (EPA) officials upon request.
