

**Agri-Mek<sup>®</sup> SC**

**syngenta<sup>®</sup>**

Agri-Mek<sup>®</sup> SC miticide/insecticide is the improved standard for reliable control of economically damaging pests in a variety of crops. It is the first abamectin product to offer low volatile organic compound (VOC) emissions in a concentrated, water-based, patented formulation. Backed by a reputation for innovation and value, Agri-Mek SC provides the proven performance growers expect from Syngenta. For quality crops and bottom line return, choose Agri-Mek SC.

## CROP SPECTRUM

Agri-Mek SC is registered for use in these crops:

- Apples
- Citrus fruit
- Cucurbit vegetables
- Fruiting vegetables
- Grapes
- Leafy vegetables (except brassica vegetables)
- Pears
- Potatoes
- Stone fruit
- Tree nuts

## KEY BENEFITS

- Same crop safety and performance growers expect from Agri-Mek
- Patented, water-based formulation with low VOC emissions
- Concentrated formula reduces packaging for storage, handling and disposal benefits
- Rainfast with long residual control due to translaminar movement
- Improved handler, applicator and re-entry PPE
- IPM compatible and does not cause secondary pest flare-ups
- Tank-mix compatible with the most commonly used crop protection products
